About This Game

Zombies rise again at the dawn of Apocalypse! In this companion to the smash-hit *Zombie Exodus*, can you survive the first few days of the zombie outbreak as the dead rise, society collapses, and the living struggle to survive?

Zombie Exodus: Safe Haven is a series of thrilling interactive survival-horror novels by Jim Dattilo, where your choices control the story. It's entirely text-based—without animation or sound effects—and fueled by the vast, unstoppable power of your imagination.

Customize a character using a variety of professions, backgrounds, special challenges, and skills to survive in a brutal and chaotic city as the Zeta virus spreads. Will you be an honorable soldier, searching through neighborhoods to aid survivors? Or will you be a ruthless bandit who loots and robs others for needed supplies? How about a paranoid hacker, psychopathic con artist, pragmatic scientist, or idealistic teenager? Dozens of options allow you to play the character of your choice.

Set in the *Zombie Exodus* world, the first part of *Safe Haven* focuses on the first few days of a viral outbreak which changes the infected into mindless zombies. Explore the changes to society at the start of the pandemic. Board your house, gather supplies, meet over a dozen other characters, and survive encounters with the living dead and even other survivors. Scavenge numerous locations, craft items, and use a variety of skills to survive the many challenges of the apocalypse.

Part Two: Out Now!

With three brand new chapters and another 310,000 words, "Zombie Exodus: Safe Haven" is now more than than 900,000 in total! That's more than 72,000 each time you play. Given the number of paths from beginning to end, you can have a unique

story every time and still never see all there is in "Zombie Exodus: Safe Haven!"

The *Zombie Exodus: Safe Haven* series will continue with future stories in new locations in the coming years.

- Play as male or female, gay, straight, bi, or asexual.
- Nineteen backgrounds/professions including Soldier, Teenager, Professional Wrestler, Bank Robber, and Doctor. Or create your own custom class.
- Choose your skill levels in eighteen different apocalyptic skills such as Stealth, Ranged Weapons, Scavenging, and Survival. Level up your skills after each chapter and choose from hobbies to round out your character.
- Select optional challenges for your survivor. Take care of a dependent child or a pet, or deal with a phobia, compulsion, addiction, or affliction.
- Meet other survivors each with their own personalities, motivations, desires, and flaws. Even form romantic relationships with those you meet.

The screenshot displays a digital tabletop game interface for Dungeons & Dragons. The main window shows a character sheet for an Arch Troll, with a detailed description of the creature and its abilities. A combat tracker is visible at the bottom, showing the stats and actions of the troll and the player's character. A spellbook window is open, displaying a list of spells and their effects. A character selection screen is also visible, showing the names and portraits of the player's characters. The interface is rich with information, including a sidebar with various game tools and a top navigation bar.

Arch Troll

The meaning these commonly called Arch Trolls do not have much more than some faint features in common with smaller trolls. Furthermore, the scarce descriptions which have been written down disagree regarding everything except what describes them as having the height of between two and three hundred feet, and as being portrayed as being always or, at times, there as having horns, others as having long hair.

The Andrians and Andrians who claim to tell about it all say that they have done around and did for their lives, as they had kind of nerves. Regarding the latter, does interview with a mountain fortress hunter associates. The first time he did so by record time by actually engaging an individual.

REGENERATION

The creature spontaneously heals, without needing to spend either time or power to do so. However, the creature has a weakness, a specific type of damage that it cannot regenerate itself, if some can be healed in other ways (e.g., the creature must choose a weakness related to some kind of damage it cannot heal automatically. Choose between magical weapons, elemental energies (fire or acid) and damage from either holy or unholy attacks.

Great and engaging time killer. It starts out fairly simple: Fill up your apartment complex with powerful monsters who can not only fight, but can pay their rent. Use rent money to buy upgrades to keep the tenants happy and ultimately strong enough to fight off the heroes who want you dead. The heroes get stonger and the games gets pretty challenging, forcing you to strategically room your monsters and try to keep the commplex full. Worth playing. Love it.. i think this proves collusion

[but serious, this game is a lot of fun to play and has a surprising amount of depth. this game seems pretty good. hope it will recieve updates from developers. even tho i bought it for achivments i enjoyed playing . doesnt feel repetitive. since its less then \\$1 i think its worth it. This game doesn't even RUN! IT'S IN THE NAME!. This game pretty much just bombs every time I try to launch it.. Overall the game is fun and really unique BUT it has maybe 1 hour of game at the most and is not worth the steep \\$10 Pricepoint. Nice gem of a game. Can tell it is still early access quality but so far I have found it to be quite addictive. Not too hard, not too easy. As others have said the soundtrack is pretty good too.](#)
